

Naples, June 29 2011
CEINGE Biotecnologie Avanzate - Auditorium

II° Meeting
**EXPERIMENTAL
HEMATOLOGY**
“Piernicola Boccuni”

P r o g r a m m e

SPEAKERS AND CHAIRMEN

Luigi Del Vecchio

General and Clinical Cytometry
CEINGE Biotechnologie Avanzate - Naples

Ravindra Majeti

Division of Hematology
Department of Internal Medicine
Stanford University School of Medicine - Stanford, USA

Stephen D. Nimer

Molecular Pharmacology and Chemistry Program
Sloan-Kettering Institute - New York, USA

Fabiana Perna

Molecular Pharmacology and Chemistry Program
Sloan Kettering Institute - New York, USA

Antonio M. Risitano

Division of Hematology
Department of Biochemistry and Medical Biotechnologies
Federico II University - Naples

- 14.30 - 15.00 **Introduction**
Luigi Del Vecchio, Naples
- 15.00 - 15.30 **Targeting CD47 with Blocking Monoclonal Antibodies in Hematologic Malignancies**
Ravindra Majeti, Stanford, CA, USA
- 15.30 - 16.00 **The Complement System in PNH: Recent Insights and Therapeutical Implications**
Antonio Risitano, Naples
- 16.00 - 16.30 **Coffee Break**
- 16.30 - 17.00 **Polycomb-mediated Regulation of Stem Cells in Hematopoiesis**
Fabiana Perna, New York, USA
- 17.00 - 17.30 **Histone Modifying Enzymes: Targets for Cancer Therapy**
Stephen D. Nimer, New York, USA
- 17.30 **Final discussion and conclusions**

CONFERENCE VENUE

CEINGE BIOTECNOLOGIE AVANZATE - Auditorium
Via Gaetano Salvatore, 486 - 80145 Naples
Phone +39 081 37 37 872
